

ABOUT SPACE GIRL

Mary Moon has a dream. Her father is missing and the adults are keeping secrets. She's sure she'll find him and solve the mystery if only she can get to the moon.

Based on a storytelling performance by LYT's Artistic Director Helen Stanley, our Junior Youth Theatre first shared part of the play online in 2020, at the beginning of the pandemic. Since then, they have helped to develop the script and worked with the designer on the set & costume designs. Now, in it's first full performance, they are excited to share this story of imagination, adventure & resilience with you.

Responding to the themes of the play, our two Devising Companies follow *Space Girl* with two short performances. Dreams and family relationships collide in *Slumber*, and space is reimaged as a snow globe in *Crazy Misfits Unite*.

WHAT'S COMING UP NEXT?
